EXPERIENCE

Kyros.ai — Senior Frontend Developer

Aug 2022 - Nov 2024

- Led the development of high-performance, scalable web applications using React, Next.js, TypeScript, Tailwind CSS, and modern frontend technologies.
- Collaborated closely with cross-functional teams to deliver seamless user experiences, ensuring robust and maintainable frontend architecture.
- Implemented best practices for code quality, performance optimization, and responsive design while mentoring junior developers.
- Conducted code reviews to maintain high standards and delivered innovative e-commerce solutions that enhanced customer engagement and drove business growth.

Socialroots — Frontend Developer

Feb 2021 - May 2022

- Worked as a Frontend Developer, building dynamic and user-friendly web applications using React, Redux, ES6, Tailwind CSS, and modern frontend technologies.
- Collaborated with product managers, backend developers, and graphic designers to deliver responsive, high-quality solutions.
- Focused on creating efficient, visually appealing user interfaces, enhancing application performance, and ensuring a seamless cross-platform experience.
- Contributed to the development of innovative features while maintaining a strong emphasis on code quality and best practices.
- Implemented unit-test cases using Jest to ensure comprehensive code coverage.

Zen Wellness — Frontend Developer

Nov 2019 - Dec 2020

- Designed and developed user-centric web applications to enhance the online experience for wellness-focused users.

SKILLS

React.js, Redux, Next.js, TypeScript, ES6+, JavaScript, Tailwind CSS, SCSS/LESS, Styled-Components, HTML5, CSS3, Bootstrap, Material-UI, Chakra UI, E-Commerce, Social Media Marketing, Google Analytics, Google Tag Manager, Figma

LANGUAGES

English

- Built responsive, accessible, and visually engaging interfaces using React, Redux, Styled-Components, and modern frontend technologies.
- Collaborated directly with the Zen Wellness team to understand business goals, implement new features, and optimized website performance.
- Ensured a seamless user experience across devices while maintaining high standards of code quality and efficiency.

Semos Cloud — *Frontend Developer*

Apr 2017 - Sep 2019

- Maintained and enhanced a full-stack web application with a focus on responsive design and cross-browser compatibility using JavaScript, HTML, CSS, and Bootstrap.
- Collaborated closely with design and product teams to optimize key features, such as quick view and product portals, by leveraging React components to improve performance and rendering across devices.
- Implemented solutions to enhance application reliability and reduce latency, ensuring a seamless and efficient user experience while adhering to high standards of code quality by identifying and addressing areas for improvement.

Semos Cloud — *Digital Marketing Intern*

May 2016 - Jan 2017

- Collaborated with the digital marketing team to develop strategies for both offline and online campaigns, ensuring alignment with client goals and brand identity.
- Worked closely with the creative and content teams to generate ideas, create visuals, and develop branding for social media channels, enhancing client engagement.
- Analyzed data from Google Analytics and social media platforms like Facebook and Instagram, using insights to optimize marketing campaigns and improve overall performance.

EDUCATION

Full-stack Web Developer, Rithm School 2019

Web Developer, Semos Cloud 2017

BS, Faculty of Economics University, 'Ss. Cyril and Methodius' — Skopje*2015

ACHIEVEMENTS

During my tenure at Esperanto Commerce, I led the development of scalable, high-performance React applications, enhancing user retention by 20% through optimized frontend architecture and performance improvements, including a 30% faster load time. At Start Bridge, I collaborated with cross-functional teams to build dynamic, responsive web applications, reducing page load time by 40% and increasing user engagement by 25%. As a freelance Frontend Developer at Zen Wellness, I successfully designed and implemented a personalized wellness dashboard, improving online engagement by 35% and delivering accessible, visually appealing interfaces. While at Semos Cloud, I improved cross-browser compatibility and responsiveness, which decreased bounce rates by 20%, while optimizing React components to speed up page rendering and enhance user satisfaction.
